ROOMIES

Twelve singles arrive at a luxury resort expecting paradise—but are paired with their personal nightmare. To win \$500,000, they'll face off in chaotic challenges, twisted alliances, and high-stakes decisions—while trying to keep their Units from collapsing... literally.

Welcome to **ROOMIES**—where love, disaster, and strategy collide. Twelve hopeful singles arrive at a high-end island compound, expecting a fairytale match based on instant attraction. Instead, they're paired with partners who challenge everything—views on love, sex, religion, politics, and more.

To make it worse, their **Units** are falling apart. Literally. Contestants must work together to keep their space intact while trying to stay in the game.

To survive, they'll earn **Blueprints** (aka points) by completing challenges, maintaining their Unit, and making smart moves. Over 10 weeks, these mismatched duos face gut-punch twists, high-stakes decisions, and major power shifts. With \$500,000 on the line, the only way out is through. Adapt. Dominate. Or watch it all collapse.

- **BLUEPRINTS:** Players earn **Blueprints** by completing challenges, maintaining their **Unit**, and playing strategically. The highest-scoring duo at the end wins—unless betrayal rewrites the game.
- **S.W.A.P. CHALLENGE [Occurs Twice]:** Contestants battle to swap partners or **Units**. Winners can either take a new partner into their own **Unit** or move into a different one. High risk. Big shakeups.
- **LEASE or LEAVE:** In the finale, the top couple faces a brutal choice:
 - If both choose **LEASE**, they split the \$500,000.
 - If one chooses **LEAVE**, they take it all.
 - If both choose **LEAVE**, the prize is split among the eliminated contestants.

BLUEPRINTS

BLUEPRINTS are the lifeblood of the game. Players earn them by completing challenges, maintaining their Unit, and making strategic plays. The couple with the most Blueprints secures a spot in the final negotiation for \$500,000.

Blueprints also unlock tools, hacks, and critical clues—giving players an edge when everything else starts breaking down.

LIFERAFT

Feeling trapped? A contestant can take the LIFERAFT and leave the game for good. But their partner is left behind, forced to adapt — or face elimination. This desperate move introduces new dynamics and opportunities for replacements to join and shake up the competition.

S.W.A.P. Challenge [Switch With Another Partner]

Twice per season, players can call out a specific contestant for a partner swap battle. If they win, they can move into the other Unit or bring their new partner into theirs. But here's the catch: losing means forfeiting Blueprints or part of the prize pot. Play it right and flip the power. Play it wrong and risk everything.

LEASE or LEAVE

After weeks of navigating chaos, unexpected twists and love [or the absence of it], the journey in ROOMIES comes down to the thrilling finale. The highest scoring couple faces the ultimate decision. With \$500,000 on the line, they must choose to either LEASE or LEAVE. A test of loyalty, strategy, and true connection.

At a face-to-face NEGOTIATION PHASE, each ROOMIE makes their decision in secret.

- Both pick LEASE: They split the \$500,000.
- One picks LEAVE: They take all the money, leaving their partner with nothing.
- Both pick LEAVE: The \$500,000 is divided among the eliminated contestants, meaning the finalists walk away with nothing.

As they stand at the LEASE or LEAVE crossroads, the audience holds their breath as the finalists' decisions are unveiled. ROOMIES ends with a bang, challenging the ROOMIES' bonds and leaving viewers questioning what they would do in the same situation. The choice is everything, and the decision is unforgettable. Will they prove that trust and partnership have been earned, or will greed and selfishness take it all?
